Appreciation

With deep gratitude, we extend our sincere appreciation to all stakeholders, the Government of Timor-Leste, our valued partners, the business community, and most importantly, the people of Timor-Leste. You are the reason we stand strong, the driving force behind our commitment to connect, empower, and create opportunities for a brighter digital future.

Your unwavering trust and support inspire us to keep innovating, expanding connectivity, and ensuring that no one is left behind in Timor-Leste's digital transformation.

A special appreciation to our Telkomcel Warriors, the team behind every innovation, every connection, and every effort to bring the future closer to our people. Your commitment and passion continue to strengthen Telkomcel's mission in empowering communities and fostering a digital-ready Timor-Leste.

As we embrace TAIS 2025, let us continue to work together, innovate together, and build a future where technology uplifts every corner of our nation.

2025

About TAIS

In today's digital era, telecommunication is more than just connectivity. It is the foundation of economic growth, innovation, and social progress. Digital transformation has reshaped the way we communicate, do business, and access information, creating opportunities that transcend geographical boundaries. As Timor Leste moves forward, the role of technology in empowering youth entrepreneurs, bridging communities, and driving the digital economy has never been more critical.

For over a decade, Telkomcel has been a key enabler of Timor-Leste's digital evolution, strengthening partnerships with the government, private sector, and communities to accelerate technological growth and economic transformation. TAIS 2025, Telkomcel Annual International Summit serves as a platform to exchange ideas, foster collaboration, and shape the future of digital innovation.

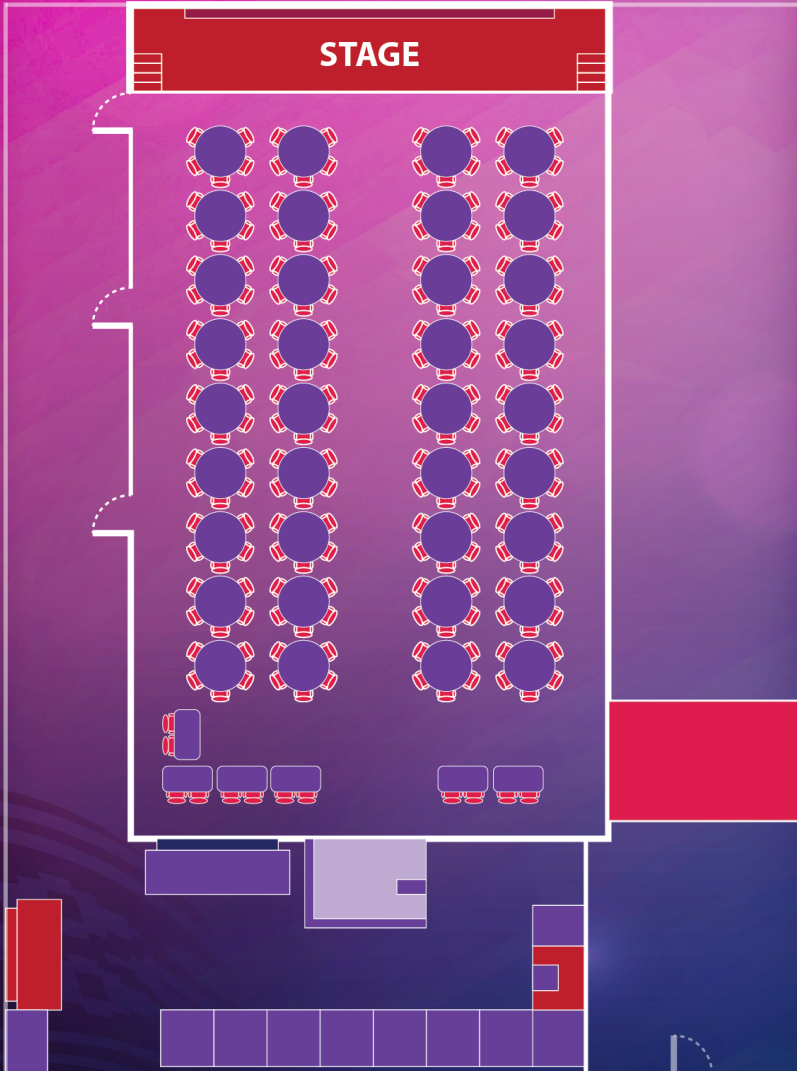

This year, we proudly present Baucau Tais as the cultural symbol of TAIS 2025, representing strength, identity, and the weaving of tradition with progress. Just as Tais fabric is woven with care and precision, Telkomcel is weaving together technology, talent, and opportunity to build a digitally empowered Timor Leste.

At TAIS 2025, we invite industry leaders, entrepreneurs, and policymakers to explore new possibilities, establish impactful partnerships, and take part in shaping Timor Leste's digital future.

**Together,
we can create a future
where innovation thrives,
businesses grow, and
no one is left behind.**

Foreword

Miguel Marques Gonçalves Manetelu

Minister of Transportation &
Communication of Timor-Leste

Digital connectivity is a key driver of progress, and the Government of Timor-Leste is dedicated to advancing telecommunications infrastructure to ensure that all citizens have equal access to digital opportunities. By 2025, we will complete the development of Timor-Leste South Submarine Cable System (TLSSC), marking the first major public investment in critical digital infrastructure in Timor-Leste. This investment will extend internet access to rural areas and integrate satellite technology to close the digital divide. These efforts will foster economic growth, empower businesses, and promote a more interconnected and inclusive society.

Nevertheless, infrastructure alone is not sufficient. It is imperative that we equip our citizens with the necessary skills to thrive in the digital economy. We recognize and commend Telkomcel for its significant contributions to enhancing connectivity and empowering youth through programs such as DigiStar, which foster innovation and support young entrepreneurs. Through robust collaboration between the public and private sectors, we are collectively shaping a digital future where no one is left behind

Budi Satria Dharma Purba

Chief Executive Officer Telin

It is my pleasure to welcome you to TAIS 2025, the Telkomcel Annual International Summit, a platform dedicated to fostering innovation, collaboration, and digital progress in Timor Leste.

As an international arm of Telkom Indonesia, Telin fully supports Telkomcel's role as a key enabler of digital transformation. We recognize Telkomcel as a vital partner in our shared vision, building a connected, inclusive, and sustainable digital ecosystem in Southeast Asia.

Through expanding connectivity, nurturing digital entrepreneurs with DigiStar, and fostering knowledge sharing through Uma Domin, Telkomcel is now shaping Timor Leste's digital economy and empowering the next generation to thrive in the digital age.

We remain committed to leveraging our global infrastructure and expertise to support Telkomcel's mission in driving innovation and bridging the digital divide.

I invite you all to use this platform to exchange ideas, explore new opportunities, and contribute to the future of Timor Leste's digital transformation.

Enjoy TAIS 2025!

Benedictus Ardiyanto Priyo

Chief Executive Officer Telkomcel

Dear Esteemed Guests, Partners, and Colleagues,

It is with immense pride and great enthusiasm that I welcome you to the second Telkomcel Annual International Summit (TAIS) 2025, held under the theme “Empowering Connectivity: Driving Innovation Empowering Generation”

TAIS is not just an international conference, it is a celebration of Timor-Leste’s rich art and cultural heritage, blended with the transformative power of technology. This summit embodies the spirit of “cultured technology,” where innovation is inspired by tradition, and where we embrace our identity as we navigate the digital economy.

TAIS 2025 is not just an event but a critical step toward enabling youth to navigate the challenges and opportunities of the digital economy. Through discussions, networking, and collaborative activities, we aim to equip young entrepreneurs with the knowledge, tools, and inspiration they need to excel in an interconnected and rapidly evolving world.

At Telkomcel, we believe that the youth are the foundation of our nation’s future. Through programs like DigiStar, we are committed to nurturing digital youthpreneurs who will bring groundbreaking ideas to life, drive economic growth, and create meaningful social impact.

We also take this opportunity to bring to life the vision of Prime Minister Xanana Gusmão, who emphasized that “no one left behind” in the digital transformation of Timor-Leste. Telkomcel is turning this vision into reality through Uma Domin, a Haven of Knowledge, a hub of digital empowerment, and a bridge to new opportunities. It is a place where knowledge is not just shared but cultivated; where young minds are nurtured with the skills, confidence, and connections needed to turn aspirations into achievements in the digital economy. Uma Domin represents our commitment to ensuring that every individual, regardless of background or location, has the chance to grow, innovate, and be part of Timor-Leste’s digital future.

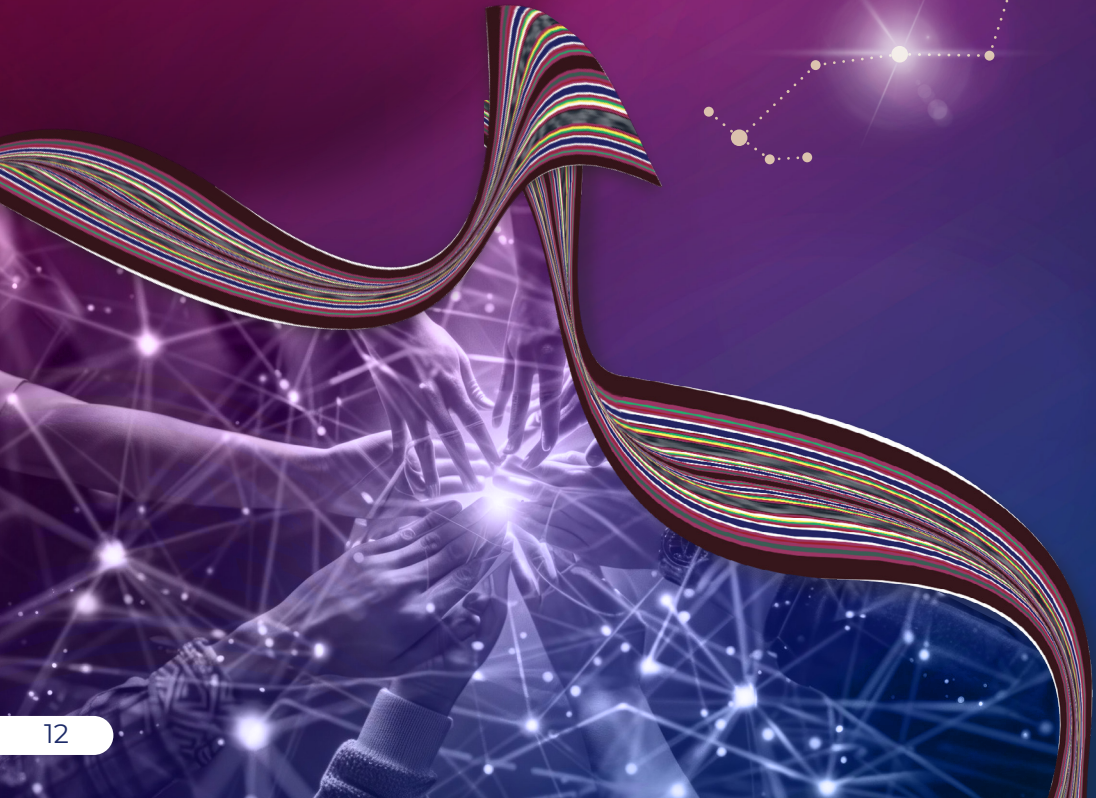

As the Prime Minister stated at last year’s summit, “The digital economy is not just about access to technology; it’s about creating meaningful opportunities for development.” This sentiment perfectly aligns with Telkomcel’s mission to be a trusted partner of the government, private sector, and community in building an inclusive, innovative digital ecosystem that leaves no one behind.

This year’s TAIS is designed to foster partnerships and collaboration among stakeholders across industries, opening new pathways for growth, job creation, and sustainable development. It highlights the role of digital capabilities in positioning Timor-Leste on the global stage while staying true to the country’s cultural roots. On behalf of Telkomcel, I extend my deepest gratitude to all stakeholders, government, partners, and customers, who have continuously supported this journey. Together, we can transform challenges into opportunities and empower the youth of Timor-Leste to lead the charge in navigating the digital economy while honoring the legacy of our culture.

Thank you for joining us at TAIS 2025. Let us make this summit a memorable and impactful experience for all.

TAIS 2025 Business Talks

Business Talk:

Empowering Connectivity: Driving Innovation Empowering Generation

This event will feature a distinguished panel of speakers:

1
Kay Rala Xanana Gusmão
Timor-Leste Prime Minister

2
Abdul Rahman Ansyori
Chief Technology Officer Telin

3
Adir Ginting

Empowering Homes, Driving Digital Growth

**Bringing seamless connectivity to every home,
ensuring no one is left behind in the digital era.**

#FamiLink #DigitalEconomy

The right solution for your home

Telkomcel FamiLink is a home internet service that uses a WiFi modem with the best cellular network quality, as well as data packages you can use without the need for a subscription.

Variuos features for internet activity

WiFi Settings

Easily manage your WiFi through the MyTelkomcel app.

Guest WiFi

Create a custom WiFi name for guests who want to use the internet from your modem.

Schedule Settings

Control internet usage for every device connected to your modem.

Usage Statistics

See your modem internet data package usage each month in detail.

Website Filtering

Select and limit internet access that does not match your preferences for family safety.

Premium Connectivity - connected to internet 24 hours

Stream live video without buffering, play online games smoothly, and various other activities using the speed of the 4G LTE and Fiber optic internet network from Telkomcel.

Connecting Generations Through Digital Literacy

Telkomcel is committed to driving digital literacy by enabling seamless online registration and eLibrary access for the Xanana Gusmão Reading Room, ensuring knowledge and education are accessible anytime, anywhere.

#Strategizing Digital Transformation for Xanana Reading Room

Through a user-friendly online registration system, students, educators, and professionals can easily enroll in courses and workshops, while the digital library platform allows users to browse, search, and reserve books effortlessly.

Additionally, the eLibrary provides instant access to a wide range of digital resources, e-books, research papers, and multimedia materials, supporting self-paced learning and research.

Powered by Telkomcel's reliable broadband solutions, these services ensure smooth and uninterrupted access to educational platforms, bridging the digital divide and empowering communities across Timor-Leste.

With Telkomcel's support, the Xanana Gusmão Reading Room is transforming into a smart learning hub, where education and digital literacy meet innovation, making knowledge accessible beyond physical locations.

Product Enterprise Telkomcel

Mobile Communication & Internet Connection

Mobile Communication Solutions

Our Mobile and Communication Solutions are tailored to provide businesses with flexible options for basic communication services. These plans ensure that employees remain connected and productive, no matter where they are.

- **Corporate Mobile Plans**

Our corporate mobile plans offer flexible options tailored to meet the unique needs of businesses, with a variety of call, SMS, and internet packages. Customers can choose whether to have fixed amount of monthly topup, or to pay based on usage.

- **VoIP Solutions**

VoIP solutions improve communication by providing high-quality voice services tailored for business needs, designed to be cost-effective, helping businesses save on traditional communication costs.

Dedicated Internet Access (DIA) & VPN

- Fast Internet Connectivity**
 Our fiber optic services provide fast internet speeds that enable seamless operations for businesses, with radio connection for backup.
- Dedicated Internet Access (DIA) – Leased Lines**
 DIA offers a dedicated internet connection, which reduces congestion and provides reliable access for businesses, ensuring that internet performance remains consistent during peak times.
- VPN**
 Telkomcel's VPN service provides secure, encrypted connections for remote access to your network, through cabled connection or Mobile VPN.

Cloud and Data Center Solutions

Cloud Storage and Hosting

- **Secure Solutions**
Our cloud storage services prioritize security, ensuring that your data is protected from unauthorized access.
- **Scalability**
Our hosting services are scalable, allowing businesses to adjust resources according to their needs and growth.
- **Remote Access**
With cloud hosting, businesses can access their data and applications from anywhere, facilitating remote work.

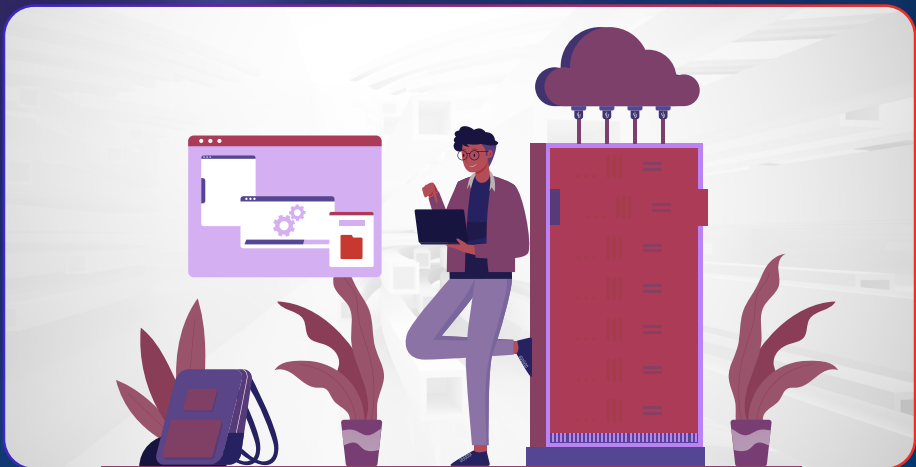

Data Centers and Colocation Services

- **Secure IT Infrastructure**
Telkomcel provides a secure environment for businesses to host their IT infrastructure, ensuring data safety and reliability.
- **Colocation Services**
The colocation services offered allow businesses to share and utilize state-of-the-art facilities for their data management needs.
- **State-of-the-Art Technology**
Telkomcel's data centers leverage advanced technology to optimize performance and ensure the highest level of service.

Cybersecurity Solutions

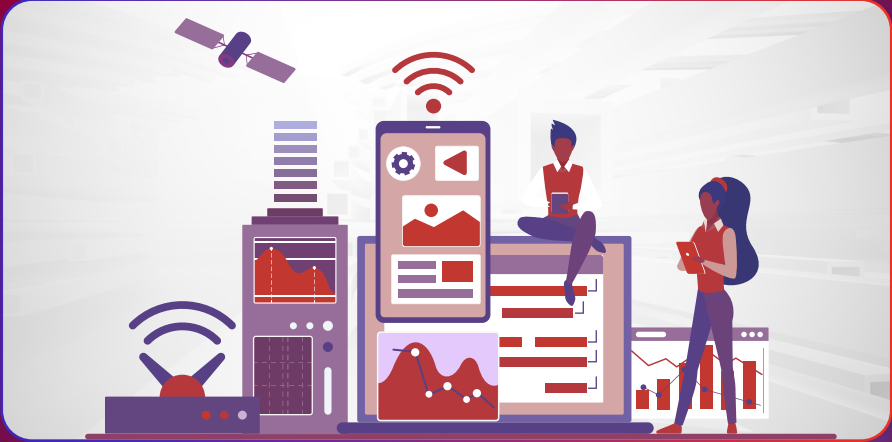

With the increasing importance of data protection, our cybersecurity solutions help businesses safeguard their information and maintain compliance with industry regulations.

- Data Protection Importance**
 Data protection has become crucial for businesses due to the rise in cyber threats and data breaches, necessitating robust cybersecurity measures.
- Business Safeguarding**
 Our cybersecurity solutions empower businesses to safeguard their sensitive information and reduce the risk of data compromise.
- Compliance with Regulations**
 Maintaining compliance with industry regulations is essential for businesses to protect their reputation and avoid penalties.

Digital Solutions and Services for Enterprise

Internet of Things (IoT) for Business

- **Connected Devices**
IoT solutions leverage connected devices to streamline operations and enhance overall business efficiency.
- **Enhancing Productivity**
By utilizing IoT technology, businesses can significantly enhance productivity through automation and real-time data access.
- **Cost Reduction**
IoT helps in identifying areas for cost reduction, leading to smarter resource allocation and savings.
- **Improved Decision-Making**
Access to real-time data from connected devices enables more informed and timely decision-making processes.

ERP and Digital Platforms for Operational Efficiency

Telkomcel provides ERP Solutions and other digital platforms to Enterprises to streamline operations, enhance efficiency, and driving sustainable growth.

- **Academic System**
Digital Solutions for universities and educational institutions to manage and monitor academic activities.
- **HR Portal**
Transform to digital processes with comprehensive, user-friendly platform designed to streamline and optimize HR processes and services, from daily clock-in, payroll, leave and approval, and employee engagement reports.

Whatsapp Business API (WABA)

- **Verified Whatsapp Account**
Get noticed by customers with a verified Whatsapp Account 'green tick' supported by Telkomcel.
- **Seamless communication with customers**
Enable business to send automated messaging, bulk messages for promotional or personalized messages, billing updates, and customer support.
- **API Integration**
Support connection through Whatsapp API integration with existing business tools to leverage advanced messaging features, to enhance communication and business operations.

Smart Office Solutions

Our smart office solutions provide businesses with the tools to create modern, connected work environments that enhance collaboration and efficiency.

- **Enhanced Collaboration**

Smart office solutions leverage technology to improve team collaboration through connected tools and flexible spaces.

- **Increased Efficiency**

By integrating modern technologies, smart offices streamline processes and enhance productivity among employees.

- **Flexible Work Environments**

Smart office solutions support flexible working arrangements, enabling employees to work both remotely and on-site seamlessly.

Fleet Management and Asset Tracking

- Resource Monitoring**
 Fleet management solutions provide real-time monitoring of assets, enabling businesses to track their resources effectively.
- Operational Efficiency**
 Effective asset tracking leads to improved operational efficiency by optimizing resource allocation and reducing downtime.
- Cost Reduction**
 Implementing fleet management solutions can significantly reduce costs by minimizing waste and improving resource management.

Customer Support and Value-Added Services

Maximizing Value

The goal is to help customers maximize the value they receive from our offerings through strategic support.

- Training and Workshops**
 We provide training tailored to empower corporate clients to effectively utilize our services for business growth. Training can be delivered Online or Offline based on corporate clients' needs.
- Video Conference Solutions**
 Telkomcel video conference facilities for online meetings, conference or workshops on Telkomcel's premise.

Conclusion

Innovative Digital Products

Telkomcel offers a range of innovative digital products designed to enhance corporate capabilities and operational efficiency.

Corporate Customer Support

We focus on empowering corporate customers in Timor-Leste through tailored services that address their unique needs.

Digital Transformation Journey

Telkomcel is committed to supporting businesses in their journey towards digital transformation through strategic guidance and innovative solutions.

Accelerating Innovation for Digital Economy Growth

As a driving force behind Timor-Leste's digital transformation, Telkomcel believes in the power of youth to shape the future. We are not just providing connectivity; we are building a foundation for a thriving digital economy, one where young entrepreneurs have the tools, knowledge, and support to turn bold ideas into reality.

Through DigiStar (Digital Startup), we are creating more than just a program; we are nurturing a movement, a movement that empowers young visionaries to dream bigger, innovate fearlessly, and build scalable, technology-driven businesses.

With hands-on learning, mentorship, and real-world startup experience, DigiStar equips the next generation to launch sustainable enterprises, drive economic growth, and lead Timor-Leste into a digital-first future.

Empowering the Next Generation of Digital Innovators

Telkomcel is proud to stand alongside Timor-Leste's bright and talented youth innovators, fostering a culture of creativity, collaboration, and digital entrepreneurship.

#Empowering Digital Innovators – DigiStar Training

#Empowering Digital Innovators – DigiStar Training

Together, we build, innovate, and lead the nation into a future where technology and entrepreneurship shape economic growth and social progress.

Social Impact & Community Empowerment

Uma Domin Go Shine - The Journey of Hope and Impact

**A story of transformation,
unity, and social impact
brought to life by telkomcel.**

We also take this opportunity to bring to life the vision of Prime Minister Xanana Gusmão, who emphasized that “no one left behind” in the digital transformation of Timor-Leste. Telkomcel is turning this vision into reality through Uma Domin, a Haven of Knowledge, a hub of digital empowerment, and a bridge to new opportunities. It is a place where knowledge is not just shared but cultivated; where young minds are nurtured with the skills, confidence, and connections needed to turn aspirations into achievements in the digital economy. Uma Domin represents our commitment to ensuring that every individual, regardless of background or location, has the chance to grow, innovate, and be part of Timor-Leste’s digital future.

Introduction

A Vision Beyond Business

“At Telkomcel, we live by our values: Familia, Unidade, Servi ho Domin, and Impactu Social. Because true progress is measured not just in networks built, but in lives uplifted.”

“Telkomcel’s journey in Timor-Leste goes beyond business; it is a commitment to enriching lives and driving positive change. Our journey began with a clear mission: to invest in progress, drive transformation, and bridge connections across the nation.

Today, our commitment goes beyond technology; it is about fostering innovation, empowering communities, and creating meaningful social impact”

The 18-Year Dream of Perumnas

“Education is the foundation of a brighter future. Yet, for many children in Perumnas, access to proper schooling was a distant hope. Until one day, hope arrived at their doorstep.”

For 18 years, the Jesus Futar Fuan Domin congregation in Perumnas, together with orphans and the surrounding community, carried a dream—a school where their children could learn, grow, and build a better future. But year after year, this dream remained just that—a dream, waiting to be realized.

A Visit That Sparked Change

CEO reflected on this conversation and asked a pivotal question: ‘How can Telkomcel support?’ For the brothers, sisters, and children of the Jesus Futar Fuan Domin congregation, this question was more than an offer of help—it was the answer to years of prayers, a response to their long wait for a school.”

Before the CEO’s visit, a moment of faith and hope unfolded. After Telkomcel’s ‘Bimbingan Rohani’ (BINROH), Brother Niko had a discussion with the CEO, where he shared his deep concern about the condition of the congregation’s space—an environment not suitable for teaching or nurturing the children’s growth. It was a plea for change, for an opportunity to give these children the education they deserved.

“With faith as their foundation, they had always hoped for a way to turn their dream into reality. And with that single question from Telkomcel’s CEO, a new chapter began.”

“It all started with a visit. Telkomcel’s CEO came, not with a business agenda, but with an open heart—to listen, to understand, and to connect with the real needs of the people. Sitting together with the families of Perumnas, we heard their dreams and their struggles. We knew this was not just about education; this was about opportunity, about giving children a fair chance.”

This is who we are—Familia Unidade, Servi ho Domin. More than just building connections, we create opportunities, transform lives, and empower futures.

#FamiliaUnidade #ServiHoDomin #SocialImpact

From Hope to Action

“A dream without action remains a dream. With the spirit of collaboration, Telkomcel and the community of Perumnas took the first steps toward turning hope into reality. Uma Domin Go Shine was born, with its foundation laid in Aldeia Lau-Lora, Suco Manleu Ana, as a haven of knowledge for future generations.”

“The goal was clear: build a school that would stand as a beacon of knowledge, a place where children could thrive. But this was about more than construction—it was about transformation, empowerment, and a future where no child is left behind.

Breaking Ground, Building the Future

“Brick by brick, the foundation of change was laid. This was not just about building walls; it was about building opportunities, empowerment, and a lasting impact. Everyone played a role—workers, volunteers, Telkomcel’s team and the families of Jesus Futar Fuan Domin’s congregation stood together to bring the dream to life.”

“Challenges arose, as they always do. But with perseverance, unity, and shared purpose, we pushed forward—because true impact is built on resilience.”

Building with Purpose, Together

“Brick by brick, the vision of Uma Domin Go Shine took shape. With dedication and teamwork, the foundation was strengthened, walls were raised, and classrooms came to life—each element built with care, purpose, and a shared commitment to the future.”

“This is the spirit of Telkomcel—standing beside the communities we serve, not just to build structures, but to create spaces of learning, growth, and endless possibilities.”

A Dream Realized – A Haven of Knowledge Opens

“And finally, after 18 years of waiting, the doors to Uma Domin Go Shine were opened. What once seemed impossible became a reality. For the first time, the children of Jesus Futar Fuan Domin, the Perumnas community, and the Manleu Ana community had a decent place to learn—a space where they could grow, dream, and build their futures with dignity and opportunity.”

“More than just a school, Uma Domin Go Shine is a haven of knowledge, a hub of digital empowerment, and a bridge to new opportunities. It is a place where knowledge is not just shared but cultivated—where young minds are nurtured with the skills, confidence, and connections needed to turn aspirations into achievements in the digital economy

“With this school, a haven of knowledge opens— one that represents our commitment to ensuring that every individual, regardless of background or location, has the chance to grow, innovate, and be part of Timor-Leste’s digital future.”

More Than a School, A Future That Shines

“Uma Domin Go Shine is more than just a school— it is a symbol of possibility. It represents what happens when communities and corporations come together for a shared purpose. It is a commitment to the next generation, ensuring that no child is left behind.”

“Telkomcel continues to invest in innovation and empowerment—not just through technology, but through lasting social impact.”

Elevating Together, Shining Together

“At Telkomcel, our journey does not end here. We will continue to elevate together, shine together, and create meaningful change— one project, one community, one dream at a time.”

“Because when we empower communities, we don’t just build schools—we build futures. And together, we shine.”
